Maths Games

Dear Parent/Carer,

I am pleased to announce that, from this week, all children will be able to borrow Maths games to play at home. There is a wide selection available; each class has its own Maths library with games suitable for their age group.

The games will help to consolidate and reinforce skills and understanding in Maths; they will help to raise levels of achievement, but most importantly, they will provide plenty of fun and competition for children and families!

Research has shown that playing games is an easy and excellent way to spend unhurried, enjoyable time together and, as an added bonus, are also rich in learning opportunities as they help players to master new skills and concepts, as well as teaching important social skills, such as communicating verbally, sharing, turn-taking, and enjoying interaction with others. Games can also foster the ability to focus and lengthen your child's attention span.

Children can borrow their chosen game for a fortnight and, at the end of the two-weeks, will be able to swap it and take home a new one. Please ensure that your child remembers to return theirs so that the full library of games is available when the children are due to swap them.

Thank you.

Miss L. Williams (Maths Co-ordinator)
